

# **INSTALLATION INSTRUCTIONS**

**Part# KPBZ68HD**

## **Input Shaft Repair Kit**

**Fits: FORD 5.4L & 6.8L (V-10) with ZF Manual Transmission.**

The prep for the input shaft repair of this kit requires removing any large burrs from the input shaft with sandpaper.

To install the sleeve, place the sleeve into the installer and then drive it onto the damaged input shaft. To install the bearing, place the lip of the bearing into the installer and drive it into the crankcase until the installer is flush with the crankcase. Install the clutch assembly.
